# Information

EVERYTHING IS OK ...  
REST IN CALM

At the forefront of global trend-setting, our team of design specialists has created collections that allow you to express your individual style. We hope you love these collections, as much as we loved creating them.

**Teraqua**

**MATT**  
80 \* 80

Our design team has curated a collection of tiles - in all kinds of sizes, finishes and colours - giving you the inspiration to create interior spaces that reflect your unique style.

We strive to provide consumers with one of the widest ranges of tiles available, offering many variations in colour, material, size, design, and application.

Natural stone is by nature quite porous and often need to be sealed to prevent staining whereas glazed tiles are very low maintenance, require a daily sweep and mopping only if required. All the beauty without the work.

MATT  
80 \* 80

Our tiles are built for living, designed to withstand the wear and tear that comes with a busy household or a high-traffic public space.

As a natural product, natural stone tiles can be irregular in shape and size which may be difficult to work with particularly when trying to achieve a certain effect. Tiles, however, are uniform in both shape and size, making them easy to install. With modern manufacturing techniques, it is possible to perfectly mimic the textures and colours of natural stone, for a realistic pattern without these variations.

Our tiles contain no harmful chemicals or Volatile Organic Compounds, making them safe for any domestic or commercial setting. This is particularly effective in maintaining high levels of hygiene and preventing the formation of mould in rooms with high levels of humidity. Certain SWT Tile ranges also include textured options for added slip resistance in wet and outdoor areas.

In this design classic sophistication meets modern minimalism. This stylish design gives your space a timeless elegance.

Whether polished or glazed, porcelain tiles are associated with creating elegant spaces. The fact that they are also durable, versatile and low maintenance are part of what make porcelain tiles a beautiful choice for both domestic and commercial spaces.

80 \* 80

The look of natural stone never goes out of style. It has inspired interior and architectural design features for centuries, and today is used more and more in commercial and residential spaces. Join the largest global trend and bring a natural feel to your living spaces.

Teraqua

Porcelain tiles are harder and denser than other type of tiles like ceramic or hardbody, as it is manufactured with a specific type of clay that is fired at a high temperature. This makes them very durable and an excellent choice for high-traffic areas such as kitchens, entrance ways, passages and living areas.
